

Sing and enjoy:

SOMEDAY SOON

Someday soon, someday soon.
Seasons were made for the change.
You will be there.
Just like the night to the day without a care.
The dark goes before the dawn.
Open up your eyes.

Someday soon
Ooo, there'll be a better day.
And someday soon,
yes, it's not too far away.

The cloudiest day comes around,
you will be there.
All of the feelings you've found, without a care.
So my friends, you take a look.
Don't you look too far?

Someday soon
Oo yeah, with open skies,
and someday soon.
All we can do is trying.
